Aims and objectives

At the Blue Coat School our vision is simple. All that we do is focused on developing exceptionally well-rounded individuals with the skills to thrive and positively contribute in a rapidly changing society.

This is underpinned by our unrelenting focus on:

Inspiring excellence

Excellence is not something that is simply achieved. It is something that we always strive for so that we can continually create opportunity and enhance the life chances of talented young people from broad and diverse backgrounds. The best is not, however, always the easiest. Our staff and learners will be resilient, and able to overcome barriers and challenges to ensure that potential is unlocked.

Shaping character

Our learners leave us not just knowing how to do things, but how to do things in the right way for the right reasons. That is why humility and integrity are the key pillars of our community, and the basis for how we treat one another. They ensure we have a culture where individuals are treated with care and compassionate respectfulness.

Forging futures

Every member of our community will leave us embracing their strengths and with ambition and aspiration as to how they can contribute positively to the modern world they are entering. Our students will become the leaders of tomorrow.

By extension, our values, approach and ethos are embodied in, and implemented through, our policies and procedures. They are the framework to support all that we do and achieve.

1. Aims

The aims of relationships, sex and health education (RSHE) at our school are to:

- Provide a framework in which sensitive discussions can take place
- Prepare students for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- Help students develop feelings of self-respect, confidence and empathy
- Create a positive culture around issues of sexuality and relationships
- Teach students the correct vocabulary to describe themselves and their bodies
- Ensure pupils learn about the laws surrounding sex, sexuality, sexual health and gender identity

RSHE at The Blue Coat School is taught in line with our school motto: Non Sibi Sed Omnibus; Not for Oneself but for All, focusing on respecting and valuing each other.

2. Statutory requirements

As a secondary academy school, we must provide RSHE to all students as per section 34 of the Children and Social work act 2017.

In teaching RSHE, we are required by our funding agreements to have regard to guidance issued by the Secretary of State as outlined in section 403 of the Education Act 1996.

At The Blue Coat School, we teach RSHE as set out in this policy.

3. Policy development

This policy has been developed in consultation with staff, students and parents. The consultation and policy development process involved the following steps:

- Review – a member of staff or working group pulled together all relevant information including relevant national and local guidance
- Staff consultation – all school staff were given the opportunity to look at the policy and make recommendations
- Parent/stakeholder consultation – parents and any interested parties were invited to comment on the policy
- Student consultation – we investigated what exactly students want from their RSE
- Ratification – once amendments were made, the policy was shared with Trustees and ratified

4. Definition

RSHE is about the emotional, social and cultural development of students, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity.

RSHE involves a combination of sharing information, and the exploration of issues and values.

RSHE is not about the promotion of sexual activity.

5. Curriculum

Our curriculum is set out as per Appendix 1, however it is reviewed and updated on an ongoing basis.

We have developed the curriculum in consultation with parents, students and staff, considering the age, needs and feelings of students. If students ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed and don't seek answers online.

6. Delivery of RSHE

RSqHE is taught within the personal, social, health and economic education curriculum, otherwise known as Personal Development. Biological aspects of RSHE are taught within the science curriculum, and other aspects are included in our Religious Studies curriculum (RS).

Students also receive stand-alone sex education sessions delivered by a trained health professional, as well as assemblies and talks which focus on RSHE.

RSHE focuses on giving young people the information they need to help them develop healthy, nurturing relationships of all kinds including:

- Families
- Respectful relationships, including friendships
- Online and media
- Being safe
- Intimate and sexual relationships, including sexual health

For more information about our RSHE curriculum, see Appendices 1 and 2.

These areas of learning are taught within the context of family life, taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBTQ+ parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

7. Roles and responsibilities

7.1 The Trust Board

The Trust Board will approve the RSHE policy, and hold the Headteacher and Deputy Headteacher to account for its implementation.

7.2 The Headteacher/Deputy Headteacher

The Headteacher & Deputy Headteacher are responsible for ensuring that RSHE is taught consistently across the school, and for managing requests to withdraw students from non-science components of RSHE (see section 8).

7.3 Staff

Staff are responsible for:

- Delivering RSHE in a sensitive way
- Modelling positive attitudes to RSHE
- Monitoring progress
- Responding to the needs of individual students
- Responding appropriately to student whose parents wish them to be withdrawn from content relating exclusively to sexual intercourse and reproduction within Personal Development. There is no option to withdraw from this content within the science curriculum. There is no right to withdraw from Relationships Education at primary or secondary as we believe the contents of these subjects – such as family, friendship, safety (including online safety) – are important for all children to be taught.

Staff do not have the right to opt out of teaching RSHE. Staff who have concerns about teaching RSHE are encouraged to discuss this with the Headteacher/Deputy Headteacher. RSHE is usually taught by teachers with responsibility for teaching Personal Development, overseen by an Assistant Headteacher and Achievement and Progress Leaders for each year group.

7.4 Students

Students are expected to engage fully in RSHE and, when discussing issues related to RSHE, treat others with respect and sensitivity.

8. Parents' right to withdraw

Parents have a right to request to withdraw their child from sex education delivered as part of RSHE in secondary schools which, unless there are exceptional circumstances, will be granted up to three terms before the child turns 16. At this point, if the child themselves wishes to receive sex education rather than be withdrawn, the school will make arrangements for this to happen in one of the three terms before the child turns 16 - the legal age of sexual consent.

Parents can only withdraw their children from the aspects of PSHE that teach explicitly about sexual intercourse and reproduction. There is no right to withdraw pupils from learning on puberty, healthy relationships, keeping safe e.g., understanding consent, positive body image and bodily autonomy (unless they are part of a lesson that also covers sex and reproduction).

Where sex and reproduction are covered as part of the science curriculum, there is no parental right to withdraw children from this (only when it is taught as part of PSHE).

Requests for withdrawal should be put in writing using the form found in Appendix 3 of this policy and addressed to the Headteacher.

A copy of withdrawal requests will be placed in the student's educational record. The Headteacher/Deputy Headteacher will discuss the request with parents and take appropriate action.

Alternative work will be given to students who are withdrawn from sex education.

9. Training

Staff training on RSHE is included in our continuing professional development calendar.

The Assistant Headteacher leading on Personal Development regularly undertakes CPD training and shares any relevant information and/or resources with all Personal Development teachers.

The Headteacher will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSHE.

10. Monitoring arrangements

The delivery of RSHE is monitored by the Senior Leadership Team through curriculum evaluation and quality assurance procedures which include lesson evaluations and student voice.

Students' development in RSHE is monitored by form tutors and Achievement and Progress Leaders as part of our internal review systems, as well as through the assessment framework within Personal Development lessons.

This policy will be reviewed by the Deputy Headteacher every three years. At every review, the policy will be approved by the Headteacher.
