Aims and objectives

At the Blue Coat School our vision is simple. All that we do is focused on developing exceptionally well-rounded individuals with the skills to thrive and positively contribute in a rapidly changing society.

This is underpinned by our unrelenting focus on:

Inspiring excellence

Excellence is not something that is simply achieved. It something that we always strive for so that we can continually create opportunity and enhance the life chances of talented young people from broad and diverse backgrounds. The best is not, however, always the easiest. Our staff and learners will be resilient, and able to overcome barriers and challenges to ensure that potential is unlocked.

Shaping character

Our learners leave us not just knowing how to do things, but how to do things in the right way for the right reasons. That is why humility and integrity are the key pillars of our community, and the basis for how we treat one another. They ensure we have a culture where individuals are treated with care and compassionate respectfulness.

Forging futures

Every member of our community will leave us embracing their strengths and with ambition and aspiration as to how they can contribute positively to the modern world they are entering. Our students will become the leaders of tomorrow.

By extension, our values, approach and ethos are embodied in, and implemented through, our policies and procedures. They are the framework to support all that we do and achieve.
